## STAGE LIGHTING

### ***Viking VK13 Sprite Laser Fx***

### **USER MANUAL**

The VK13 is a 13mw laser product that creates a moving pattern of white stars similar to a Firefly.

The unit is IP65 rated and mains is supplied via a 16a mains plug

The unit has several modes of operation allowing different patterns, speeds and still or moving images that are enhanced with the use of haze or smoke in the atmosphere.

Options are selected using a simple push button to cycle through the various features. DMX operation is not possible on this unit.

Power: 13w

Voltage: 100-240v 50/60Hz auto sensing
